

Terms and Conditions (Job Seekers)

1. All job seekers/users shall use the information provided through the JINESS platform for seeking employment and/or lawful purposes only.
2. Authorized user names and passwords are required to log onto the JINESS platform. Users shall safeguard their passwords and shall not disclose any confidential information to others. Users are obliged to inform JINESS if unauthorized access to their accounts is suspected. JINESS assumes no liability for any unauthorized or improper use of any information provided via the platform.
3. Users confirm and acknowledge that they are willing to disclose their personal data and details to employers for recruitment purposes, should they decide to submit, upload or post any information in the platform. Under such circumstance, users accept that all personal data and information provided through the platform are given entirely at their own risks. JINESS reserves the right to reject, disapprove, or edit any part of job seekers' profiles that deemed to be inappropriate.
4. JINESS shall not be held liable for any inaccurate information presented in the platform.
5. External links are being provided as a convenience and for informational purposes only; they do not constitute an endorsement or an approval by the JINESS of any of the products, services or opinions of the corporation or organization or individual. The JINESS bears no responsibility for the accuracy, legality or content of the external site or for that of subsequent links. Contact the external site for answers to questions regarding its content.
6. Users may opt out of the JINESS job portal anytime by contacting the Project Officers of their institutions. Should users decide to opt in again, they may consult the Project Officers of their institutions for standard procedures.

7. JINESS reserves the right, at any time, in its sole discretion, to change or modify the terms and conditions on the platform without prior notice.

Please contact the JINESS team via email jiness@hsmc.edu.hk if there is question on the use of the JINESS platform.
